"On the voyage there were thirty-two deaths, of which there were twenty-nine at 8 o'clock. in the ateerage, one in the cabin and two

among the orew." "My God!" ejaculated the operator, "this is awful!" But there was more.

"I am now starting in our tug Crystal Water to transfer seven patients stricken with the plague to the Hospital on Swinburne BYRON." Island."

The operator grasped the sheet of paper on which he had hastily jotted down these terrible tidings and flew to Dr. Jenkins's room. The exhausted Health Officer reluctantly arose from the couch where he was snatching a few minutes' needed rest, but when the operator gasped " Scandia " he was siert in an instant.

Rushing into his office, he turned up the gas and read the message. The hand that any of the ships had been removed up to 9 held the tidings dropped to his side, while its 9 o'clock this morning. The Amain and the owner's thoughts, if uttered, would un- Hamburg-American liner columbia, sister countedly have been: "How long is this ship of the infected Normannia, are expected terrible scourge to last ?"

chip, might have escaped his vigitance in the St. Pancras, from Liverpool Aug. 20; the pilot. might not other Liverpool ships just passed and the Kaiser Wilhelm II., from Bremen, are be proving even now to be messengers of also expected in today.

The Officials' Appalling Task. Gigantic his task indeed, in the face of the but said that the Britannic, Stubbenbuk, Obcircumstances, but here, right on their very dam and perhaps Dubbledam would be heels, was yet another menacing bulk, fairly recking with the germs of infection. It was enough to make any man grow faint at heart and discouraged.

The Health Officer, however, had little time for such musings. The light in his office had given an intimation to Evaning World and other reporters, who all night long had kept constant guard before his house that important news received by the bealth guardian of the port should not escape them.

Health Officer opened the door and admitted the reporters. The information he imparted was meagre, but it was big with

"That is all I have learned so far, gentlemen," said the Health Officer, after reading the despatch quoted above, and he again sought his couch.

A little later the wire from Swinburne child mrs Fanny Klein and Mr Helmanuel Moses Island flashed the news that Mrs. Person, Mr Jechiel Sillermann and family. Island flashed the news that Mrs. Persson, the mother of the two children who died on

It was 8.45 this morning pefore any furthe news was received from the lower bay. At that hour Dr. Walzer came up on the transport William Fletcher.

Many More Cases on the Scandla. To an Evaning Would man he said there were many more cases on the Scandia beside the seven first reported. How many he did not know, but the patients were being transferred to Swinburne Island on the tug Crys-

veloped up to the time of his departure.

Dr. Byron had given him his information in a casual conversation. So far as Dr. Walzer detention. The symptoms are undoubtedly for upward of a year. on the detained ships other than the Scandia but Dr. Byron had told him that there was one death on Swinburne Island.

Dr. Walzer did not know that the unfortu nate victim was Mrs. Persson. He was under the impression that she was still alive.

The Scandia sailed from plague-scourged Hamburg Aug. 25 after a twelve-day watt there during the beginning of the epidemic. Her usual destination is Baltimore, but before she sailed it was changed to this port, ing by the Stonington, which will not now be used as an observation hospital, as at first with orders to proceed to Baltimore later.
